Detailed Action

This is the second Office Action corresponding to amendment filed Dec 4, 2006. The application contains 9 claims, numbered 25-33; claims 1-24 have been cancelled. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claims 32 and 33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. No proper antecedent is found in claim 32, line 12 for "the front panel".

Claim Rejections - 35 USC § 103

The reference to Deshler discloses a stand comprising a floor mount (11), a location means (13, 22), a contiguous column (12) extending between the floor mount and the location means, the column having a curved axis (see Fig 1, between 58 and 16), a front panel (front of the column) and a hollow spine (sides and back of the column). The spine does not show two different cross-sections at its connection points, neither is supporting a display unit. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to make the bottom connection point of the

column greater than the other connection point to increase the stability of the column.

The physical structure of Deshler's device is fully capable of supporting a display unit; i.e. a plasma screen.

Allowable Subject Matter

Claims 25-31 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 33 have been fully considered but they are not persuasive. The contiguous column is shown by the reference. The reason to increase the cross-section of the connection point with the floor mount is presented in the rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection (112 rejection) presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
